BACHELOR DEGREE IN SOFTWARE ENGINEERING

2022-2026

GREETINGS!

VISAL here. I am 23 years old and a fresh graduated software engineer student with an eye for detail. I am creative and like to innovate. I am someone who believes that every day is an opportunity to learn something new, try something different, and becomes a little better than yesterday. As a software engineer student, I naturally enjoy technology, but I'm also someone who values creativity, good relationships, teamwork, and small experiences that shape everyday life. I'm curious, adaptable, and always willing to learn and I bring that mindset into everything I do.
